TECHNICAL BID CORRIGENDUM

Tender Ref No- 2441/DGM (QA)/HO/2024

Tender ID: 2025 TCMPF 521816 1

Corrigendum for E-Tender called for, Design, Supply, Erection, Installation and Commissioning of **Pilot Scale Milk & Milk Product Equipment On Turn Key Basis** at Research & Development Laboratory, Products Dairy, Ambattur

Following points were recommended and proposed to amend the technical specification as detailed below: -

Page No. 37

7.5) WALK IN INCUBATION /BLAST FREEZER BATCH TYPE

Function	shall be used to store curd milk to maintain @ 45 Deg C for 4-5 hrs and after that through blast make curd milk @ 10 Deg C
----------	--

“Added”

The size of the room 2m x 2m x 3m (Width x Length x Height)

Page No. 40

11.0) WALK-IN COLD ROOM

Size	<ul style="list-style-type: none">• 2 Mtr x 2Mtr (H) main door & 0.6mx 0.6M Hatch door
Other Requirements	<ul style="list-style-type: none">• Temperature chart recorder, Data logger with USB port• Caster wheels for mobility

“MAY BE READ AS”

Size:	<ol style="list-style-type: none">1. Cold Room: 8 (W) x 8(D) x 8 (H) Ft2. Main door: 2 (W) x 2(H) Mtr3. Hatch Door: 0.6 x 0.6 (WxH) Mtr
Other Requirements	<ul style="list-style-type: none">• Temperature chart recorder, Data logger with USB port• Caster wheels for Mobility with interlocking facility to avoid the movement during handling

12.0) WALK-IN FREEZER ROOM

Size	<ul style="list-style-type: none"> • 2 Mtr x 2Mtr (H) main door & 0.6mx 0.6M Hatch door
Other Requirements	<ul style="list-style-type: none"> • Temperature chart recorder, Data logger with USB port • Caster wheels for mobility

“MAY BE READ AS”

Size:	<ol style="list-style-type: none"> 1. Cold Room: 8 (W) x 8(D) x 8 (H) Ft 2. Main door: 2 (W) x 2(H) Mtr 3. Hatch Door: 0.6 x 0.6 (WxH) Mtr
Other Requirements	<ul style="list-style-type: none"> • Temperature chart recorder, Data logger with USB port • Caster wheels for Mobility with interlocking facility to avoid the movement during handling

13.10) BATCH HARDENING

<p>The complete unit shall be consisting hardening cabinet where the products produced in an extrusion line or a stick shall be packed and hold in the cabinet under (-20 Deg.C) The hardening room for storing cups -20 Deg. C. PUF Insulated panels Pre-Coated. These panels can separate by rigid foam in place of Polyurethane Insulation. Panels can conveniently assemble at site and the joining and disassembling of the Panels shall be done by using an Allen Key.</p> <ul style="list-style-type: none"> ▪ Insulated main door with S. S. latches & heavy duty hinges. ▪ Air-cooling unit suitable capacity to maintain the cold room temp. Consisting copper cooling coil with suitable fins per inch with fan with motors. Air-cooling unit ▪ Defrosting system, waters drain arrangements. ▪ One lot of copper Pipes and fittings for circulation of refrigerant with necessary valve based on compact layout with its insulation and aluminium cladding. <p>Refrigeration control consisting of, Solenoid Valves with filters, Electric Level Controller with Float and Digital Temp. Gauge etc.</p>

“Added”

<p>The size of the room 2m x 2m x 2m (Width x Length x Height)</p> <p>Batch Size – 100 Litres</p>
